

**Canton Township, Michigan Board of Trustees Meeting - April 25, 2017 7:00 – 9:00 PM**

My name is Matthew A. Grisius. I am a Canton Township resident. I will not state my address for personal safety, privacy, and legal reasons. On Monday April 10, 2017 I sent an email to Governor Snyder and members of the [Child Lead Exposure Elimination Commission](#) which was formed by a recommendation of Lt. Gov. Brian Calley's [Child Lead Poisoning Elimination Board](#) about a serious lead poisoning issue regarding Plymouth Canton Community School children and toxic lead emissions from the 1d2 Canton-Plymouth Mettetal Airport.

I cc'd Pat Williams and John Anthony and forwarded the email to the remainder of the Canton Township Trustees, including Sommer Foster, Anne Marie Graham-Hudak, Dian Slavens, Steven Sneiderman, and Michael Siegrist via Jacqueline Shamus for their review.

I believe that Canton Township residents should be aware of the supporting facts and details of the email to Governor Snyder. The details are at <https://close1d2.org/lead-poisoning/>.
